

# Quick Start

The quick and stylish solution for when your own furniture is in transit.

## Quick Start gets you started... quickly.

We also specialize in furniture for:

- Short and Long Term
- Corporate Relocations
- Home Styling Presentation
- Display Homes
- Apartment Developments
- Events
- Office Rental
- Corporate Rental

If you're relocating to Australia, and all your belongings are on the high seas, here's a quick and easy way to get you and your family settled and back to normal. The Quick Start package from Living Edge Rental.

With Quick Start, you can rent everything you need to set up your new home. Standard or deluxe furniture in either contemporary or traditional styles, appliances, hi-fi, TV, DVD, even linen, towels, dinnerware, cutlery as well as pots and pans and other utensils.

You can choose just a few items or an entire house full, or you can start with the basics and add items as you need them. All at extremely attractive short-term rentals. And when you compare the cost of a Quick Start package with, say, the short-term rental of a serviced apartment, the savings speak for themselves.

## Step off the plane and into your fully furnished home.

To make your transition even easier, Living Edge Rental can select the furniture and other items on your behalf, collect the keys to your new home, then deliver and install. We'll even make the beds, connect the washing machine, put away the cutlery and crockery and tune the TV and DVD. All you have to do is get off the plane and move straight in!

## Quick Start means flexibility.

Unexpected shipping delays could mean that your own furniture may take up to three months to arrive. That's why Quick Start is such a good solution. Our rental arrangements are flexible in terms of both what you rent and how long you rent it. So you and your family can relax and settle into home, school and work at your own pace.
